50295-1-UA

"The greatest discovery of my generation is that human beings can alter their lives by altering their attitudes of mind."

—William James

"A child's mind is like a bank—whatever you put in, you get back in ten years, with interest."

—Frederic Wertham

"Education in the humanities sharpens the individual's quality of choice . . . . Choice is a vital part of all our lives. And nowhere is it more important than in free government."

—John Dewey

Education in Alaska

A report to the people

1984—85

"In today's world creativity is not just a nice thing to have. It is a grave necessity."

—Edgar Dale

"Democracy is the only system that does not make education the servant of power."

—R. M. MacIver

"We are often searching for better answers when we should be developing better questions."

—Donald D. Quinn

"If a man empties his purse into his head, no one can take it from him."

—Benjamin Franklin

Alaska State Board of Education

The State Board of Education reelected Ernestine Griffin as president, Barney Gottstein as vice-president and Mary Schaeffer as second vice-president. William Eubank, Don Gray, Sue Hull and Janie Leask continued to serve as members. Air Force Colonel Roger Strosnider served as military advisor and Robin Bucaria as student advisor.

During the 1984-85 school year the Board continued to examine issues dealing with improving student achievement. The Board also:

- Approved regulations requiring school districts to develop and assess curriculum for each grade and subject level and directed efforts to develop model curriculums for 10 subject areas
- Entered into an agreement with the University of Alaska Board of Regents to form a subcommittee of the Regents and the Board to discuss coordinating support systems and delivery of education programs in public school districts and the university system
- Created a special assistant to the Commissioner of Education for rural and Native education
- Initiated actions necessary to open Mt. Edgecumbe High School to students in September 1985. These included approving a mission statement, an outline of course offerings with emphasis on the Pacific Rim, and a $3.8 million operating budget
- Held public hearings and continued to work on policy issues regarding revamping Alaska's Public School Foundation Program to create a new, equitable school funding plan
- Prepared for transfer of Alaska's last 10 Bureau of Indian Affairs (BIA) schools to the State of Alaska at the end of the 1984-85 school year.
- Sent to Governor Bill Sheffield a prioritized list of school construction projects totaling $525 million
- Approved regulations for vocational education. Among other things, the regulations outline minimum criteria for approval of programs to receive state vocational education funding
- Appointed a task force to examine and make recommendations on teacher certification
- Set a timeline for developing and implementing a uniform accounting form to report school district data.
- Initiated a study to examine issues surrounding school building construction and make recommendations for reform.

"The race which does not value trained intelligence is doomed. Not all your heroism, not all your social charm, not all your wit, not all your victories on land and sea, can move back the finger of fate."

—Alfred North Whitehead

Division of Educational Program Support

Office of Special Services

Thirty-two school districts provided 9,500 students with bilingual/bicultural programs in more than 100 languages in FY 85. School district gifted/talented programs served some 4,000 academically talented and intellectually gifted students.

Special programs served 11,344 handicapped children and young people through school districts, the Alaska State School for the Deaf, the Severe/Multiple Handicapped School, Providence School for Alaska Psychiatric Institute and Alaska Resources for the Moderately/Severely Impaired.

Forty-seven school districts provided community education programs for both adults and students, and 23 school districts offered special programs for migrant students, with special emphasis on improving basic skills.

Office of Instructional Services

The Office of Instructional Services provided instructional support to all Alaska public schools during FY 85. The LearnAlaska instructional television network broadcast more than 3,000 instructional television programs to schools in 230 communities and made most programs available on videotape through the state film library.

The LearnAlaska audioconferencing network allowed educators at 350 sites to share in planning sessions, professional meetings and inservice training. Students from many parts of the state participated in the statewide "Battle of the Books" competition over the air.

The Alaska School Leadership Academy provided 200 school principals with regional training sessions in clinical teaching and supervision. Five hundred teachers and administrators from 240 schools were trained in nationally recognized model programs through state participation in the National Diffusion Network.

As use of computers in Alaska schools nearly tripled since 1983, instructional services staff developed and delivered training for teachers and provided information and licensing for educational software. Nearly 3,000 students used multi-media, computer-based Individualized Study by Technology courses developed for small high schools.

The office contracted for production of several instructional television series specific to Alaska. Those included *Alaska Ecosystems*, *Biographies of Alaskans* and *The Alaska Native Claims Settlement Act*. The office produced two interactive television series in which students and teachers used audioconferencing to interact with guests featured on television and sponsored television coverage of several conferences and special events.

Office of Curriculum Services

In collaboration with professional associations, education agencies and other interested Alaskans, staff members completed in-depth review of the 10 model curriculum guides drafted in 1984. Results from a survey of all Alaska school districts were published in a *Status Report on Curriculum* that gives important baseline information about curriculum, instruction and assessment in the state.

Implementation of new curriculum regulations began, with monitoring and review cycles scheduled to follow in 1985-86.

"Tomorrow's children, if they are to manage this land well, will need the precision of scientifically attuned minds, coupled with a sensitivity to their fellow men (and fellow women) and creatures."

—John F. Kennedy

The Alaska State Writing Consortium instituted a series of open institutes to extend training in the writing process to more Alaska teachers. Consortium membership grew to 36 school districts, and a regionalized board was formed to address continued demands for services and training. In 1985-86 an Alaska Math Consortium will be formed on the Writing Consortium model.

More than 30 pre-elementary programs were certified, bringing the state total of certified programs to 80, an increase of 400 percent over last year,

Model programs recognized included 94 MERITS—More Educational Resource Ideas To Share—and four Promising Practices. Talent Bank staff coordinated 35 inservice sessions around the state.

Office of Supplemental Programs

The Office of Supplemental Programs administered approximately $17 million in federal funds to supplement education for Alaska students with special needs. These programs included:

- Chapter I specialized programs for educationally deprived children
- Chapter II block grants to improve Alaska students' basic skills, provide special services such as counseling and community education and offer state leadership programs
- Services for handicapped students under Public Laws 89-313 and 94-142
- Grants to school districts and the University of Alaska through the Title II Economic Security Act to improve science and math programs
- Programs for migrant students who move a great deal because their families are occupied in fishing or logging
- Technical assistance to school districts in the area of sex equity under Title IV Sex Desegration.

The office administered state plans to insure that school districts and the state complied with federal requirements, coordinated the Department of Education Management Informa-

tion System and developed an on-line monitoring system for reviewing school district programs.

Division of Vocational Rehabilitation

As an integral part of combined federal and state efforts to aid the physically or mentally handicapped, the Division of Vocational Rehabilitation worked with some 3,500 Alaskans to provide and purchase services necessary to put clients to work. Those services included physical diagnosis, vocational evaluation and assessment, and vocational counseling for all clients. For some clients they included restorative surgery, artificial limbs, psychiatric therapy, on-the-job training and other services.

To help expand vocational rehabilitation in rural areas, the division opened branch offices in Bethel and Kotzebue.

During FY 85 about 450 clients were placed in gainful employment.

Division of Management, Law and Finance

The division managed and distributed $727.5 million to operate schools in FY 85. This funding provided:

- regular instruction programs for some 100,000 students
- transportation for 47,000 pupils
- nutrition and food programs in some 100 school districts, private schools and child care centers across the state
- instructional programs for 755 school-age wards of the state
- instructional services for 400 severely handicapped students
- boarding care costs for 130 students without local high schools.

The division also issued teaching certificates to 2,300 new applicants and renewed certificates for 2,200 applicants. The division provided data and word processing support, and financial and payroll accounting for the department.

"If a doctor, lawyer or dentist had 40 people in his office at one time, all of whom had different needs, and some of whom didn't want to be there and were causing trouble, and the doctor, lawyer, or dentist, without assistance, had to treat them all with professional excellence for nine months, then he might have some conception of the classroom teacher's job."

—Donald D. Quinn

Division of Libraries and Museums

Alaska State Museum

The state completed purchase of Sheldon Jackson Museum in Sitka and renovated the historic building in FY 85. The museum, the oldest in Alaska, houses what many consider the finest collection of Alaska Native material in the world and contains art objects not available in any other collection accessible to the public.

A 13-member citizen committee reviewed space needs of the Alaska State Museum in Juneau and published a booklet delineating the need for expanding that facility. Photo documentation of 1,500 objects in the museum's collection was completed, conservation projects continued and upgrade of textile storage was begun. A conservation guide for museums statewide was completed for publication.

Major acquisitions included a Tlingit bentwood box from the 1880's, historical fine arts and photography, and 90 Eskimo objects from the Kepner collection representing Nome, St. Michael and Circle City around the 1890's. Some 60 Alaska State Museum learning kits circulated to 350 schools statewide. New kits on Northwest Coast art and Chilkat weaving have been nearly completed.

Fifteen visual arts exhibitions were presented in the Governor's Gallery, and traveling exhibitions, including one featuring selected objects from the Sheldon Jackson Museum, visited 14 Alaska communities.

Eleven permanent exhibits were completed, including upgrades to the Tlingit community house, the eagle tree and a new visitor orientation area.

In addition to providing $122,000 in grants to 28 Alaska museums, museum field services initiated a program to help Alaska museums prepare to meet accreditation standards of the American Association of Museums. Nationally recognized ex-

perts on fundraising, volunteerism and museum shop programs were brought in to train staff from museums around the state.

Local and statewide school groups toured the museum and participated in special activities, and Eskimo translations of text were prepared to accompany the museum's *Inua* exhibit.

Alaska State Library

The State Library answered 26,400 reference questions, distributed more than 37,000 state publications to 20 depository libraries and published the 1985 *Alaska Blue Book* in FY 85. Staff members completed nearly 10,000 data base searches for health sciences personnel and circulated 78,000 films and videos.

The Alaska Library Network (ALN), a cooperative effort among many types of libraries in the state, continues to grow. The network catalog, available on microfiche in all Alaska libraries, lists more than 1.2 million books, films, videotapes and periodicals held by the more than 20 Alaska libraries that are members of the Western Library Network.

Three significant works added to the library's collections were Boulitchoff's *Atlas of Siberia*, with superb ethnographic plates of Eskimos and their culture; a copy of Choris's *Voyage Pittoresque Au Tour du Monde* with fine quality colored plates; and, rarest of all, *A Voyage Around the World in the Years 1785, 1786, 1787 and 1788* by an anonymous author. All three of these works are otherwise available only in such repositories as Harvard University or the Library of Congress.

Executive Administration

Office of the Commissioner

The Office of the Commissioner made progress on a number of goals during the fiscal year. At the beginning of the fiscal year, high priority was placed on developing a proposal for a revised Public School Foundation Program.

In spring 1985 the Office of the Commissioner reorganized its efforts to develop a new, equitable school funding plan. The Funding Formula Advisory Committee was formed to set the plan's policy directions and technical details. School superintendents, school business managers, representatives of state government, legislators and legislative staff members, school board members and representatives of municipalities and education associations were appointed to the committee. December 1985 is the target date to deliver the proposal to the Governor.

The office also made progress in a number of other areas during the fiscal year:

- Fiscal accountability: The Department developed a uniform financial reporting and accounting system during FY85 and scheduled a trial period to refine the system during FY86.

- Academic Accountability: The Office of the Commissioner directed the development of 10 model curriculum guides in ten areas: mathematics, science, language arts, social studies, kindergarten, computer education, health, physical education, foreign language and fine arts. A schedule also was delveloped to distribute the guides during FY86.

- Schools of the Future: The Office began a process to identify future needs of Alaska's schools. A proposal will be made to the legislature in January 1986.

- Mt. Edgecumbe: The office met a wide variety of academic, budgetary and construction challenges surrounding the opening of Mt. Edgecumbe High School, the BIA's former boarding high school in Sitka. Meeting these challenges assures the Department will open the school as a state facility in September 1985.

- Teacher Certification: The office convened the Teacher Certification Task Force, which will make recommendations to the State Board of Education in the fall of 1985. The recommendations could result in alterations to Alaska's teacher certification requirements.

"Teachers are the critical factor in that expensive, long-term investment that is education. We must help them concentrate on what only they, as human beings, can do and automate everything else."

—Peter F. Drucker

Office of Adult and Vocational Education

The Office of Adult and Vocational Education worked with Alaska school districts to provide vocational programs, adult education and career counseling to Alaskans. Staff members prepared state plans for vocational and adult education. The office administered some 200 state and federal grants for adult and vocational education and provided training, evaluation and support for school district programs.

The office worked with local private industry councils to provide education services through the federal Job Training Partnership Act. Staff members worked with school districts and other agencies to serve vocational needs of students having limited English-speaking ability, handicaps or economic disadvantages.

The office worked with the state departments of Corrections and Health and Social Services to provide 1,200 students in Alaska correctional and detention institutions with vocational education, postsecondary education, special education and high school completion programs.

The Alaska Career Information System provided career information on Alaska occupations, programs of study and postsecondary institutions to 20,000 Alaskans statewide.

The office provided instruction and support to rural and urban fire departments for training firefighters.

Centralized Correspondence Study

During the 1984-85 school year, Centralized Correspondence Study provided home study courses for 1,290 students studying in grades kindergarten through 12 and preparing for general education diplomas. CCS staff members served as advisory teachers to correspondence students and guided home teachers in scheduling and monitoring work under daily lesson plans.

Centralized Correspondence Study began revision of the kindergarten through twelfth grade physical education curriculum and pilot tested new language arts and science courses that will be available to Alaska school districts on a cost recovery basis.

A number of Alaska schools used CCS courses for classroom enrichment and independent study and in areas where a teacher in a particular subject was not available. Three school districts contracted for full educational services to some of their students.

"Make no little plans; they have no magic to stir men's blood . . . . Remember that our sons and grandsons are going to do things that would stagger us."

—Daniel H. Burnham

Alaska State Council on the Arts

The 11-member State Council on the Arts is appointed by the governor to serve as the state's arts agency. In FY 85 six full-time Council employees in Anchorage provided assistance to artists and arts groups from more than 50 Alaska communities. In addition, the Council:

- Awarded $4.75 million in grants to more than 300 artists and organizations. These included operating support, project grants to arts organizations, artists' travel grants and fellowships, community arts block grants, traditional Native art apprenticeships, workshops and Artist in the Schools programs.
- Arranged 52 artists' residencies in Alaska schools and school districts
- Provided forward funding to support three major fine arts camps for Alaska students
- Initiated a long-range planning process for arts in Alaska that involved all sectors of arts in the state
- Reinstated the Alaska Contemporary Art Bank. That included purchase of 23 new works of art and making nearly 500 works in the collection available to 21 state offices.
- Assisted some 27 state agencies, school districts and offices of the University of Alaska with selection and placement of works of art in public buildings
- Began a capital grants program offering funding to arts groups for purchase of permanent equipment and renovation of facilities for the arts.

Alaska School Activities Association

For the second year the association focused on implementing a classifica-

tion plan under which use of four classes determined by school size allows more appropriate competition among Alaska's widely different schools. The system is scheduled to be established in all activities as appropriate by the 1985-86 school year.

In 1981 the association conducted nine state level events. This year it conducted 21. During the 1985-86 school year it will conduct 25. Besides state tournaments in sports such as basketball and wrestling, activities include invitational competitions in such areas as foreign language declamation, forensics and drama and art.

Alaska Historical Commission

Commission members awarded 44 grants for research, publication and training projects in Alaska history. The commission prepared and published the first volume of an Alaska history textbook, *Alaska History: Prehistory to 1867*. A second volume covering the years 1868 to 1984 was near publication at the end of the fiscal year.

The commission sponsored a conference on Alaska prehistory in cooperation with the Alaska Anthropology Association and one on Alaska military history in cooperation with the Alaska Historical Society. A film on World War II in Alaska was undertaken at legislative direction and is scheduled for completion at the end of FY 86.

Professional Teaching Practices Commission

In fulfilling its mission to establish and enforce standards of ethical and professional performance among certificated Alaska educators, the Professional Teaching Practices Commission received 11 new cases, closed 10 cases and had 11 cases pending in FY 85. The commission revoked or suspended certificates in five cases

The commission continued to review Department of Education certification regulations and procedures. The commission also participated in the teacher certification task force created by the State Board of Education to review current regulations and recommend ways to strengthen the certification process.

Public Information and Communication

The public information unit initiated a statewide public information campaign focusing on the Alaska Education Centennial, 1885-1985. Campaign information kits and radio and television public service announcements were distributed. Theme of the centennial was Education: An Investment in Alaska's Future.

The public information staff assisted with the implementation of information programs of the various divisions of the Department of Education.

"The product of education is not knowledge or learning . . . . It is always a person."

—Peter F. Drucker

Commission on Postsecondary Education

The Commission on Postsecondary Education advises the Governor and the Legislature about functions and purposes of Alaska's public and private colleges and universities. It serves as the consumer protection agency for postsecondary education services in the state.

Each year the commission reviews the University of Alaska's operating and capital budgets and makes recommendations to the Governor and the Legislature. It administers Alaska's educational incentive grant program, the Western Interstate Commission for Higher Education (WICHE) student exchange program, the teacher scholarship loan program and the Alaska student loan program.

The commission annually conducts and publishes a survey of high school seniors and their plans after high school, and it is developing a statewide master plan for postsecondary education that is scheduled to be completed by December 1985.

In FY85 the commission distributed approximately $76 million in student loans.
